Our programmes and courses are based on the principles of Lean methodology and aim to provide businesses with the tools and mindset needed for sustainable growth improved performance and long-term success.

Through a unique blended learning model we offer 24/7 access to interactive courses live coaching to embed learning and onsite workshops to help learners apply their new skills.

SIMPLIFY TRAINING

Click2Learn's online training platform offers a simple cost-effective solution for managers looking to train multiple employees simultaneously within the flow of work. The platform's user-friendly interface makes setting up and assigning courses quick and hassle-free.

Managers can avoid the traditional costs associated with travel accommodation and venue hire making it a budget-friendly option for organisations of all sizes. The straightforward billing process via Stripe or purchase order further simplifies financial management allowing managers to focus on what truly matters – their team's development.

Overseeing the Training Journey

SCALABLE AND CUSTOMISABLE TRAINING

One of the most significant benefits of Click2Learn to a business is scalability. Our platform supports unlimited training places making it an ideal choice for growing businesses organisations with fluctuating training needs or for large-scale training at pace. Whether you're onboarding a handful of new hires or rolling out a

company-wide initiative Click2Learn can accommodate your requirements without any limitations.

This flexibility ensures that every employee has access to the training they need when they need it without any logistical headaches or delays.

In addition our platform can host your business's own courses or should you require more bespoke training our experienced team can create training and workshops tailored to your specific requirements thereby ensuring a personalised and effective training experience.

END-TO-END MANAGED SERVICE

For businesses looking for a complete solution for the training needs of their organisation our platform can be seamlessly integrated with existing LMS and HR systems allowing clients to incorporate their existing training materials and creating a fully-managed service from start to finish.

requirement assessment the creation of individual training plans and certification on successful completion. Programmes may be created in multiple languages for businesses with locations around the globe and the system enhanced with proctoring tools to monitor student behaviour and authentication during online testing.

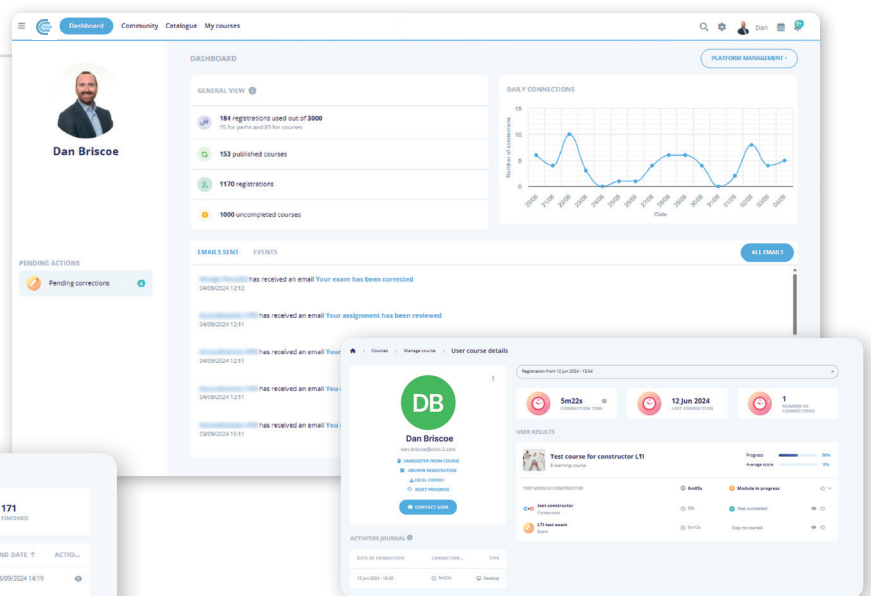

Our comprehensive approach includes employee registration training

EFFORTLESS PROGRESS TRACKING

Tracking learner progress is made easy with Click2Learn's intuitive dashboards and reporting tools.

Managers can effortlessly monitor who has started completed or is due to start their courses providing real-time insights into training effectiveness and compliance.
